Integrated Data Visualization

WHITEHOUSE STATION N.J., Jul. 24, 2016 – Sysoft Corporation announced today the development systems and software that support integration of various data visualization tools from Qlik, Microsoft, SAS, Tableau, and others.

Initial projects include intelligence data visualization systems for supply chain, investment banking, clinical data driven medicine, translational bioinformatics and more.

About Sysoft Corporation

Sysoft Corporation started operations in 1991 providing software products, services, and training for data science, eBusiness, mobile applications, device implementations, procurement sourcing systems, contract monitoring tools, clinical data science, big data predictive analytics, intelligent systems for aerospace, investment banking, supply chain and more. We focus on innovation, excellence, and client care. Our clients enjoy increased revenue, cost reduction, and predictive as well as prescriptive data driven intelligence.
